Clear NC Sanding Sealer										
651776	Pro H-Build™ 680 Clear NC Lacquer Sanding Sealer	24%	35-40	6	20	n/a	680	0.77	24	No
Fast dry. Easy to sand. Economical. High solids. High build. Low HAP.										
Clear Pre-Catalyzed Sanding Sealers										
651825	DuraCat™ 275 Water-Clear Pre-catalyzed Lacquer Sanding Sealer	22.1%	17-19	5	25	n/a	273	0.001	6	Yes
Water-clear, non-yellowing. Water resistant. Excellent hang, and sag resistance. Good hold out. Superior bubble release and film clarity. Ultra-Low HAP.										
651975	DuraCat™ 680 Water-Clear Pre-catalyzed Sanding Sealer	25.3%	21-25	5	20	n/a	615	0.017	12	Yes
Water-clear, non-yellowing. Excellent water and chemical resistance. Low odor. Easy sand. Ultra-Low HAP.										
Clear Pre-Catalyzed Lacquers										
651885	DuraCat™ 275 Water-Clear Pre-catalyzed Lacquer	23.7-25.0%	17-19	5	20	16	274	0.038	6	Yes
Water-clear, non-yellowing. Excellent abrasion and water resistance. Ultra-Low HAP.										
651810	DuraCat™ 550 Water-Clear Pre-catalyzed Lacquer	26.2-27.7%	17-19	5	20	6	547	0.017	12	Yes
Water-clear, non-yellowing. Exceptional abrasion and mar resistance. Excellent water and chemical resistance. Ultra-Low HAP.										
651881	CataLuxe™ 680 Clear Pre-catalyzed Lacquer	27.3-28.9%	32-38	5	20	8	671	0.663	12	No
Slight amber tone. Resistant to yellowing. Exceptional abrasion and mar resistance. Excellent water and chemical resistance. High build. Low HAP.										
651820	ClearBuild™ 680 Water-Clear Pre-catalyzed Lacquer	29.8-31.5%	27-30	4	30	8	653	0.0003	12	Yes
Water-clear, non-yellowing. Exceptional abrasion and mar resistance. Excellent water and chemical resistance. No HAP.										
653042	UltraClassic™ 680 Water-Clear Pre-catalyzed Lacquer	26.5-27.6%	28-32	5	25	8	667	0.028	12	No
Water-clear. Resistant to yellowing. Super-Low HAP.
